— Why Cosmic Destiny?

Where ancient numeric science meets mathematical precision

Astrology is not about predicting a fixed, unavoidable fate. It is the math-based system of calculating cosmic radiations and their dynamic interaction with human consciousness and Karma.

Under the expert guidance of **Astrologer Koushik Chatterjee**, we strip away the superstition from Jyotish Shastra and deliver highly actionable, authentic planetary guidance.

- ✓ **100% Scientific Calculations**
  We utilize precise mathematical models (including Swiss Ephemeris 2.10) to compute planetary degrees down to seconds, avoiding any generic speculation.
- ✓ **Zero Fear-Mongering**
  We do not exploit planetary alignments like Mangal, Shani Sade-Sati, or Rahu/Ketu transits to terrify seekers. Every astronomical hurdle is an evolutionary threshold.
- ✓ **Lifestyle-Based Upays**
  Our remedies are simple, practical, and lifestyle-oriented—focused on meditation, dietary patterns, chanting, and mindset upgrades rather than unaffordable rituals.
- ✓ **Absolute Confidentiality**
  Your date of birth, geographic locations, personal struggles, and discussion notes remain completely confidential and encrypted at all times.

Our consultation workflow

Our step-by-step approach ensures your cosmic analysis details are examined from multiple astronomical frameworks before delivering concrete solutions.

1. **Focused Listening** — We start by understanding your question and situation in your own words.
2. **Thorough Investigation** — Your birth chart is calculated precisely from your date, time and place of birth.
3. **Comprehensive Analysis** — Houses, nakshatras, sub lords and the running Mahadasha are read together.
4. **Identifying Barriers** — We pinpoint which planetary periods are creating the blockages you face.
5. **Tailor Made Solutions** — You receive clear timing and simple, practical remedies made for your chart.

Why the readings are specific

The same 360° of sky, measured three times – each time more finely.

12 signs (rashis)

Where most horoscopes stop. Everyone with the same moon sign gets the same prediction.

27 nakshatras

Each sign is split into lunar mansions of 13°20′, which set your dasha periods.

249 sub-lords

Each nakshatra is divided again, unequally, by the planets' dasha years. Reading the sub-lord of each house is what lets us say not just "what" but "when".
